

02.03.11

Very many thanks, and you too happy birthday to all the F-ies!
I mail you a picture later to let you see how he looks, 1 year old, I hope other F-ies wil do the same, so we can see them on the website. Greetings from Rozenburg.

28.10.10

Hello Elke,

I'm a little embarrassed, every time I walk with Fyper I think I should e-mail each, to let her know how things go

So you're in my thoughts many, but not enough in my computer, now is the time!

Every thing goes very well with Fyper, he's a very busy dog, raising his leg (since 6 weeks) He needs a lot of attention, and still wants to "fight" with other dogs who's boss, but always in a playful way .

He is wonderful with children, but sometimes he jumps in his enthusiasm against them, and scare them, then fyper sees of the reaction of the children he automatically sits down ...

He is very alert to people walking by, he never barks, but Groms.

He is a "killer" puppy when he takes the chances he'll get eat your shoe, a pencil, the door, you food, or anything that's in his power ...

he still eats the "German" food, platinum and it is still going fine,

He is learning very quickly and already knows many of the commands, sit, stay aligned, lie, come on, shake (if it has rained before you go inside)

The pups school went very well, we are on July 17 passed , the comments were: follows perfectly, happy puppy, nice sit and stay exercise, a bit restless with showing the teeth, a dominant attitude towards other puppies increasing, coming when calling when he is free: very good!

Last night we had an exam for EG1, he graduated with 76 out of 100 points, (is the average for the group). comments like: bouncy, fun moments to follow but busy, left / right turn, it runs fine, enthusiast playing, sitting nicely next to the boss, down / stay command, well, remain calm

call when free: well, is very happy for the boss.....overall picture, happy, busy, attention to the boss.

I sent pictures They were made 30 september.

Greetings the mattijs family.

Hai Elke and Family,

07.08.10

Here is everything ok, we've been on holyday for 4 weeks, and so we couldn't mail you.

We sent pictures before our vacation, but we haven't seen them on the site, so I'll mail them again.

With Fyper is everything fine, he grows well, and is a smart dog, he is super with the kids, and also with other dogs, he is learning a lot at school, and he went swimming with the dog of my brother, he had a lot of fun.

Demy went 4 on 19 June, so she is going to school next week for the first time, exciting !!!

I sent you new pictures for the site, and some more pictures!!!!

Greetings from Rozenburg

Hoi elke,

Everything is going very well, we are at school, he likes the other dogs very much

The teacher say fyper is a dominant dog, we thought so our self

He is learning very quickly, walks at the left, and following is fine, even sitting at the crossover is no problem.

With the kids it goes perfect, demy has a little trouble because she is so little and not so strong, but we are alert and teach her how to deal with it, it goes well!

Fyper had his fist visit at the veterinarian, he was pleased, he think fyper is a nice dog, well trained, nice bread.

He's got his shots and "entwunt" for month may, he is a sweet dog!

Look at the pictures and be surprised how much he had grown!

Nice vacation,

Greetings

Rodney, Chantal, ivan, demy and fyper

07.06.10

dear Elke,

its indeed a long time since you heard from us.

but Fyper and we are doing very well!

The first week on de camping went very well! many other people, children and dogs seen.
the second week at home Fyper get used of his home, meet the neighbors and their dogs.
and explore his place in the house.

next Tuesday will Fyper get his second vaccination, so coming Saturday we may start school.
We are of course itself deal with primary education, followed on the leash, sit, etc. It is a fast learner smart dog.
Night's going good for about 7 hours, then he starts to beep, and we go outside.
We get many compliments what a nice dog it is also what we find.
the kids are good with Fyper, Ivan is already a good boss for him.

also some foto's from the first week.....
happy holidays!
Greetings from the Family Mattijs

Mai 2010

Lieve Elke

02.05.10

what a treasure of a dog is Fyper.
The trip went very well, after about 15 min Fyper go to sleep.
sometimes he wake up and see us, it looked good and he went to sleep again.
when we arrived at the caravan there were many impressions and playing but after a while (about 1.5 hours) he fell asleep near my feet.
Fyper eat, not everything, but that will come.

yesterday evening we went to some friend's birthday, it went very well!
strange first course, many people, everyone wants to cuddle him.
although we sometimes allowed it, it can also be too many.
After a hour fyper had seen enough and he got to my feet and fell asleep.
When he awoke we immediately went outside a large pee, where it should. very good!
everyone was surprised that we got Fyper since that morning, he was doing very well. compliments for you!

Last night he slept in the caravan, woke up a few times been likely missed his mother, siblings.
when we were awake and have gone out immediately went out, but not pee or poop.
also played in the tent and then a pee, we were actually too late
belt turned on and go outside, after much twisting and strange noises he pooped.
very good!
Fyper will go to sleep now again, so he can play again when he wake up.....

dear greetings from us and a hug from Fyper.

Our opinion from this first day that he is very quick learning.

But that you might already know.
